Andrea Britton. Facilitator, Marketer and Coach

Over the past 30 years, I have been a single mum, recording artist, performer, songwriter, author, event planner, project and marketing director, content creator, graphic designer, photographer, filmmaker, and transient rambler!

I have started, sold and closed businesses. I've worked with huge budgets and next to nothing, I helped a client become a YouTube sensation and numerous other people into roles that are aligned with their true purpose.

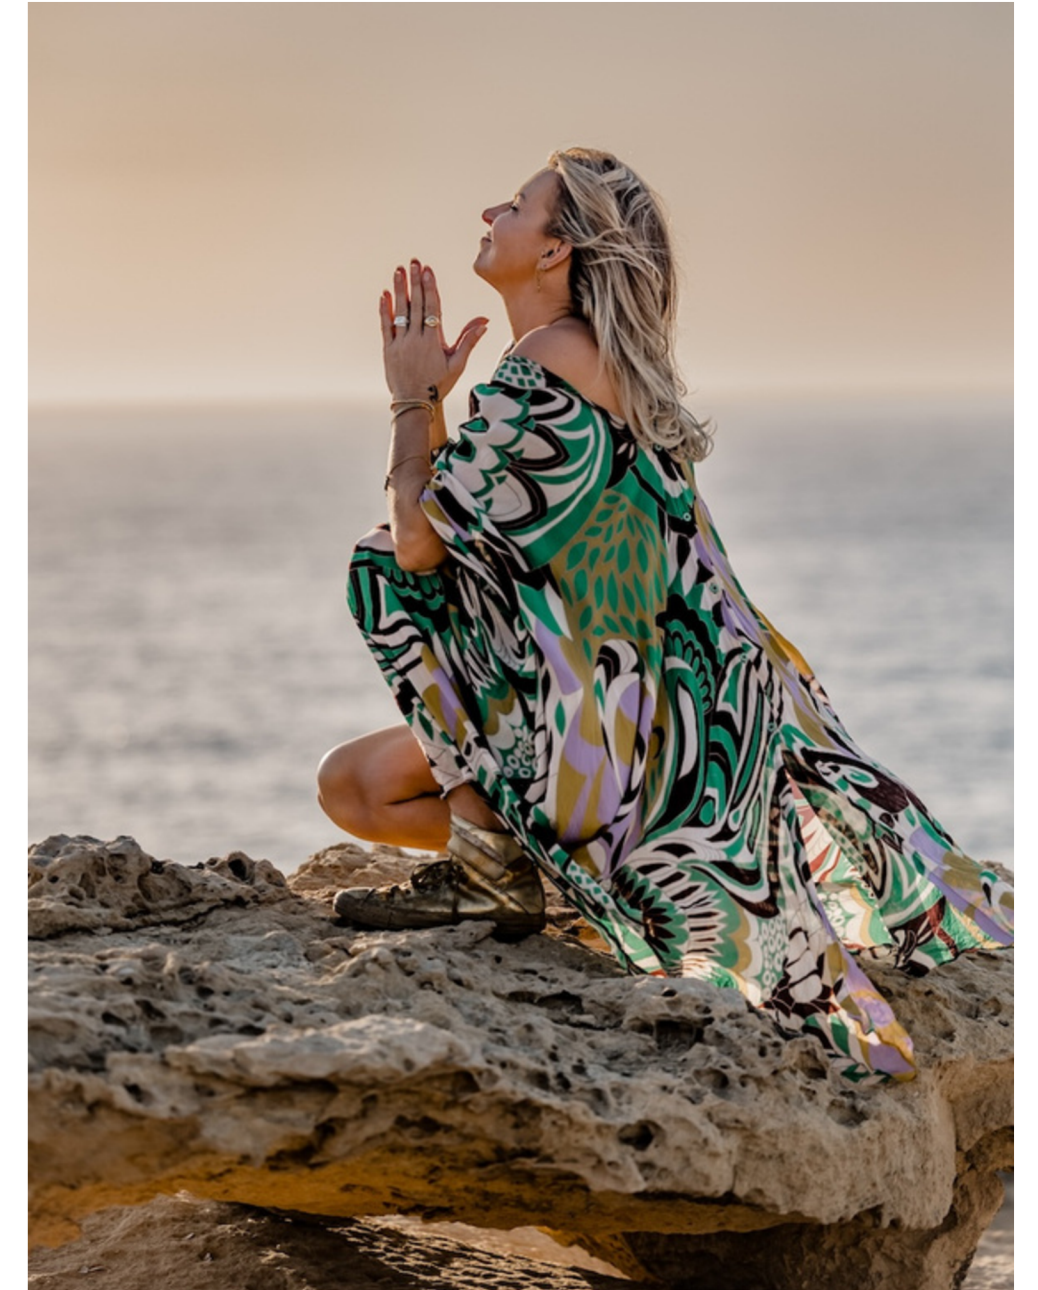

In 2018, I started to spend a lot of my time in Gozo, I needed to unplug from my busy life and make time for healing and magic. Since then, I have started two other businesses, transitioned into consultancy and coaching and have more time on my hands than ever before! I also pursued training in various transformational methodologies, becoming certified in business, spiritual and life coaching. Recognizing a deeper calling to help individuals thrive in business and their daily lives. I now specialise In...
